

Formative Assessment 1

Subject: Big Data Analytics

Class: BE IT A, B & C

Date: 01-07-25

Sr. No	Question	CO	RBT Level	P.I	Marks
Answer any 2 out of 3					
1	List and explain examples of big data	CO1	AN	7.3.1	5
2	Construct a basic architecture for a Big Data solution focused on real-time analytics, using a Walmart case study as the foundation for your design.	CO1	AN	7.3.1	5
3	Develop a Netflix case study in Big Data analytics, explaining the role of machine learning with specific examples.	CO1	AN	7.3.2	5
Answer any 2 out of 3					
4	Examine the architecture of Pig, explaining how it processes data and integrates with the Hadoop ecosystem.	CO2	A	5.4.1	5
5	Analyze basic Hadoop commands, explaining their functions and how they are used to manage Hadoop operations	CO2	AN	1.6.1	5
6	Analyze the key features of different types of NoSQL databases and differentiate their capabilities and use cases.	CO2	AN	3.5.1	5
Answer any 2 out of 3					
7	Analyze strategies for coping with node failure in distributed computing environments.	CO3	AN	1.2.1	5
8	Analyze how MapReduce can be used to perform matrix-vector multiplication.	CO3	A	3.6.2	5
9	Create a detailed diagram that summarizes the MapReduce process in nutshell	CO3	AN	3.8.1	5

Subject Incharge: Dr. Neha Patwari (BE IT A) / /Mrs. Nidhi Bhavsar (BE IT B) /Mrs. Monisha Linkesh (BE IT A) /)
